STEERING WHEEL COVERS INSTALLATION GUIDE / GUIA DE INSTALACIÓN

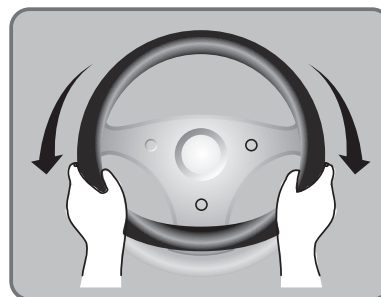

1. For easy installation, warm the cover in the sun to help it stretch over the steering wheel.

Caliente el forro bajo el calor del sol para hacerlo flexible y facilite la instalacion.

2. Align the cover and install the top half over the steering wheel.

Alinie el forro por la mitad superior y deslícelo sobre el volante.

3. Secure the top with one hand and pull down the left and right sides gently but firmly towards the bottom half.

Mantenga el forro superior alineado y jale los lados hacia abajo en forma constante.

NOTICE: This universal product has been designed and tested to be compatible with most steering wheels. However, different car manufacturers' steering wheels vary in thickness. Secure a tight fit before operating vehicle and ensure a snug fit around the steering wheel before using.
